**WEST LOS ANGELES 25, CALIFORNIA**

FINE ORCHIDS ARE NO  
MAGICIAN'S TRICK

but, as Voltaire has said "Perfection is attained by slow degrees. She requires the hand of time."

## CATTLEYA HYBRIDS FROM COMMUNITY POTS UP

The stock listed includes many of the varieties on which our reputation has been built and a goodly number of new crosses. As is our usual custom, the prices are for single lead plants although often the plants we send out have more than one lead. Descriptions are of necessity brief, but we believe adequate although of course we will be glad to give additional information with regard to any of the items.

As is now well known, we grow our plants in smaller pots than is customary. Our clients can therefore feel sure that any plants they buy will be fully up to pot size; in fact, many of them are ready to pot on into at least one size larger, often two to three sizes larger. This is a point that should not be overlooked.

We do not lay particular stress on the fact that some of the parent plants we use have been awarded a First Class Certificate or an Award of Merit by the Royal Horticultural Society. This is not because we depreciate the value of these awards but it is a well established fact among breeders of long standing that such awarded plants do not always produce the best hybrids. In the course of over twenty-five years we have developed and proven a number of stud plants to a point where we **know** that they will produce the results we are after. We do have a large stock of awarded plants and are constantly adding to them but they in themselves do not guarantee consistently good results. However, when used with what we may term our "private stud" which has been developed by generations of our own breeding, the combination gives us the assurance of the quality that you and we ourselves want.

ARMACOST & ROYSTON, INC.

Los Angeles, 25, California

Spring, 1948

- Plants are offered strictly subject to prior sale.
- This catalog cancels all previous lists and special quotations.
- Prices subject to change without notice.
- It will be readily understood that it is impossible to keep orchid plants stationary with regard to pot size whilst they are catalogued. Potting must be done as it becomes necessary. Because of this we shall substitute sizes of plants in filling orders unless we are specifically instructed not to do so.
- Community pots average about fifteen plants to the pot and must be purchased as a whole as it is not practical to separate the seedlings for shipment.
- All orders will be packed free of charge and will go out Railway Express collect unless we are instructed otherwise. The plants are packed securely and on arrival should be examined and then signed for. If there is any damage, notify the express company, have their agent see the damage and file claim with him. We guarantee safe delivery but no claim will be considered later than ten days after receipt of the plants.

Illustration on Front Cover.

**CATTLEYA SERENITY, VARIETY SUPREME**

(C. Santa Monica var. Goliath x C. Trianae, var. Edgar Knight)

All who have grown this hybrid realize its quality. For form, texture and size it is outstanding. The color is not dark but is warm and satisfying and it is a beautiful grower. We offer a second batch of young plants made with the original parents under Cross Number 1175.

*Laeliocattleya Treasurer*  
Cross No. 3251

Variety		Size	Price
54	<b>C. H.S. LEON</b> (C. gigas x C. Schroderae) . . . . . Vigorous, free flowering Cattleya blooming late fall and early winter. Sepals and petals medium to light lavender, lip darker with a yellow to orange throat.	6"	\$15.00
80	<b>C. GENERAL PULTENEY</b> (C. Octave Doin x C. Trianae) . . . . . Well known hybrid. Our strain is made from C. Trianae var. Edgar Knight and a fine variety of C. Octave Doin. The flowers are large; sepals and petals deep lavender-pink, sometimes ribbed with crimson-purple and the lip dark crimson-purple with a yellow throat. Late fall and winter bloomer.	5" 5 1/2" 6"	\$15.00 20.00 25.00
111	<b>LC. MONTEREY</b> (C. Trianae, Grand Monarch F.C.C. x Lc. Lustrissima) Very pretty winter and early spring hybrid. Flowers large. Sepals and petals are silver-lavender. The lip is darker with a rich throat.	5"	\$25.00
161	<b>LC. BRACEYANA</b> (Lc. Lustre, W'birt. var. x C. labiata, W'birt var.) . . . . . One of our best introductions. Flowers large, of noble proportions. Sepals and petals are deep rose to rose-purple. The lip intense crimson-purple with some orange in the throat. Usually summer and early fall bloomer, but can be variable.	5" 5 1/2" 6"	\$25.00 30.00 35.00
169	<b>LC. CONQUISTADOR</b> (C. labiata, W'birt. var. x Lc. Morvyth mag.) . . . . . Similar to No. 161, even richer in color but not quite so fine a shape. Blooming around the same time, it is a high quality Cattleya.	5" 5 1/2" 6" 7"	\$25.00 30.00 35.00 40.00
181	<b>C. MOUNT ROYAL</b> (C. Enid x C. Maggie Raphael) . . . . . Our strain of this hybrid is well known. It is a strong growing Cattleya. Very free blooming with several flowers to the spray. The flowers large and of beautiful shape. Rich in color, the sepals and petals being bright warm rose and the lip darker with a yellow throat. Season variable but usually fall and winter.	4 1/2" 5" 5 1/2" 6"	\$12.50 15.00 20.00 25.00
496	<b>C. ACHINE</b> (C. labiata x C. Maggie Raphael) . . . . . Made with superior parents this is a fine strain of this hybrid. It is exceedingly strong growing and free flowering. Fine for cut flowers. Flowers are large and several to the spray. Medium to deep rose sepals and petals with a dark lip, heavily veined with gold. Fall blooming.	5" 5 1/2" 6" 7"	\$15.00 20.00 25.00 30.00
538	<b>C. MONARCH</b> (C. Empress Frederick x C. Trianae, Grand Monarch, F.C.C.) . . . . . Bred from Trianae, Grand Monarch, our strain of this hybrid is larger than usual and varies considerably in color from lavender to deep rose. Exceedingly free flowering, blooming from November until March.	4" 4 1/2" 5" 5 1/2" 6"	\$10.00 12.50 15.00 20.00 25.00
602	<b>C. JICARILLO</b> (C. Fabianid x C. Peetersii) . . . . . One of the richest colored Cattleyas we have raised. Exceedingly free, the flowers are large. Warm rose-purple sepals and petals with a darker lip.	5" 5 1/2"	\$15.00 20.00

*Please Read Our Foreword*

Variety		Size	Price		
857 <b>C. MRS. FREDERICK KNOLLYS ALBA</b> (C. Hardyana alba x C. Mossiae Reineckiana)	A fine white with colored lip. The flowers are large, of good shape and texture. Clear creamy-white sepals and petals with a dark lip and much yellow in the throat. Variable, usually winter and spring.	4"	\$15.00		
		4½"	20.00		
		5"	25.00		
		5½"	30.00		
		6"	35.00		
		7"	40.00		
867 <b>C. BRUSSELS ALBA</b> (C. Harold alba x C. Mossiae Reineckiana)	Exceedingly free, sepals and petals white; the lip, purple at the base with a light yellow throat. An extended season from October until June.	1½"	\$5.00		
		2-2½"	7.50		
		4"	15.00		
		4½"	20.00		
		5"	25.00		
		5½"	30.00		
878 <b>C. FABIANID</b> (C. Enid x C. Fabia)	Well known hybrid. Strong growing. Very free flowering. Somewhat variable as to season but late fall and early winter predominating. Sepals and petals deep lavender to rose. Lip dark, rich crimson-purple with light yellow and gold veining in the throat.	4½"	\$12.50		
		5"	15.00		
		5½"	20.00		
		6"	25.00		
		7"	30.00		
		945 <b>LC. SEAFORTH</b> (C. Intertexta x Lc. Locarno)	One of the freest flowering Laeliocattleyas we know and of unusually good shape. Variable as to season but late fall and early winter seem to predominate. Sepals and petals are deep lavender to rose. The large lip is rich crimson with yellow and orange in the throat.	4½"	\$25.00
5"	30.00				
5½"	35.00				
6"	40.00				
7"	45.00				
985 <b>C. BENEVOLENCE</b> (C. Achine x C. Hardyana alba)	We gave this name because of this hybrid's free flowering qualities. The sepals and petals are white to cream, the lip is solid purple at the base with a yellow throat. The season is fall and early winter.			4"	\$12.50
		4½"	15.00		
		5"	20.00		
		5½"	25.00		
		6"	30.00		
		1010 <b>C. RODOLPH</b> (C. Warneri Ardenholme var. x C. Remy Cholet)	In habit of growth this is the most spectacular Cattleya we have raised or seen. It is free flowering usually summer and early fall. The flowers are of extra fine form, several to the spray, often five or six. Of good shape, the sepals and petals are deep lavender to rose. The well displayed lip is rich crimson with a light area in the throat. Rodolph has so far proved to be most difficult to get seed from, but if this can be accomplished the results, we feel sure, will be well worthwhile.	5"	\$25.00
5½"	30.00				
6"	35.00				
7"	40.00				
1031 <b>C. TRIMOS</b> (C. Mossiae x C. Trianae, Edgar Knight)	Probably the deepest colored Trimos yet raised. Even the sepals and petals are a deeper shade of lavender and the lips in most cases are solid, deep, rich purple. It is exceedingly free flowering, commencing to bloom in March and finishing in early May.			4"	\$10.00
				4½"	12.50
		5"	15.00		
		5½"	20.00		
		6"	25.00		
		1055 <b>C. QUEEN MARY</b> (C. Mendelii x C. Warneri)	Good commercial Cattleya. Light to medium color. Variable season, winter to early spring predominating.	5"	\$12.50

*Prices Subject to Change Without Notice*

Variety		Size	Price
1091	<b>LC. HASSALLII ALBA</b> (Lc. Britannia alba x C. gigas, F.M. Beyrodt, F.C.C.) A well known hybrid. The flowers are large, white, with sometimes slight purple shading with a flat gigas lip, bright crimson-purple, and a yellow throat. Free flowering, blooming usually spring and early summer but is variable.	4" 4 1/2" 5" 5 1/2" 6"	\$10.00 12.50 15.00 20.00 25.00
1104	<b>C. SUSANNAH</b> (C. triumphans x C. Dinah, A.M. var.) A fine hybrid strongly resembling C. Dinah but with a much longer flower spike with the flowers well spaced. A most worthwhile cut flower Cattleya and we think a worthy parent. Blooms usually late spring and summer.	5" 5 1/2"	\$25.00 30.00
1155	<b>LC. NATCHI</b> (C. Roehrsiana x Lc. Hilary) Considerable variation in this hybrid. Exceedingly strong growing, extra large flowers. The rich color in the sepals and petals and an intense, large crimson-purple lip make this a show variety as well as an exceedingly good cut flower. Variable, fall and winter predominating.	5" 5 1/2" 6" 7"	\$35.00 40.00 45.00 50.00
1156	<b>LC. HELEN ARMACOST</b> (C. Octave Doin x Lc. Hilary) Very similar to above. It is very fine and worthwhile. Variable but fall and winter principally.	5" 5 1/2" 6"	\$35.00 40.00 45.00
1163	<b>LC. MIMBRENO</b> (Lc. Sargon, W'birt. A.M. x C. Octave Doin) Great range of color here. In some cases almost white sepals and petals with a rich lip; others, light lavender to intense, deep rose with large, dark lips and rich throats. Season variable but winter and early spring principally.	5" 5 1/2" 6" 7"	\$35.00 40.00 45.00 50.00
1171	<b>C. PROSPECTOR</b> (C. Santa Monica x C. Remy Cholet) The best cut flower Cattleya we know of. Strong in growth, exceedingly free flowering. Sepals and petals are medium lavender to rose, dark lip, yellow to orange throat. Commencing to bloom in October, this variety blooms through the winter until April.	4" 4 1/2" 5" 5 1/2" 6" 7"	\$20.00 25.00 30.00 35.00 40.00 45.00
1172	<b>C. DIPLOMAT</b> (C. hivernalis x C. Remy Cholet) Similar to above but larger and lighter in color in the sepals and petals. Blooming around the same time.	4" 4 1/2" 5" 5 1/2" 6" 7"	\$15.00 20.00 25.00 30.00 35.00 40.00
1175	<b>C. SERENITY</b> (C. Santa Monica v. Goliath x C. Trianae, Edgar Knight) A spectacular Cattleya, it gives very freely large flowers of fine texture and wonderful proportions. The sepals and petals are lavender to rose with dark lip. It should and does make a wonderful parent. Blooms during the winter.	2-2 1/2" 3" 3 1/2" 4" 4 1/2" 5" 5 1/2" 6"	\$10.00 15.00 20.00 25.00 30.00 35.00 40.00 45.00

Variety		Size	Price
1185	<b>LC. YENBO</b> (C. H.S. Leon x Lc. Marie Dobrott) A spectacular grower of great strength. Very free flowering. Flowers are large, light to medium lavender sepals and petals with darker lip. Yenbo has fine form and is a very worthwhile cut flower variety.	6" 7"	\$40.00 45.00
1199	<b>C. CORYDON</b> (C. Armainvillierense x C. Trianae, var. Edgar Knight) A very free flowering winter and early spring bloomer of medium color. Sepals and petals are silver-lavender, lip darker with a yellow and orange area in the throat.	5" 5 1/2" 6"	\$15.00 20.00 25.00
1232	<b>C. LOS ALTOS</b> (C. Sir Walter Scott x C. Hentschelii) Exceedingly free flowering spring bloomer, greatly resembling C. gigas of which it is largely composed. It is similar in color and form but much freer blooming.	5" 5 1/2" 6"	\$15.00 20.00 25.00
1250	<b>LC. DULZURA</b> (C. Harold alba x Lc. Canhamiana alba) A strong grower and a great improvement over Canhamiana alba. Its one fault is that in many cases there is a slight lavender flush in the petals. The season is variable but principally spring.	1 1/2" 5" 5 1/2" 6" 7"	\$ 7.50 35.00 40.00 45.00 50.00
1265	<b>C. CLARIBELLE</b> (C. Thorout x C. Dinah, A. M.) A spectacular Cattleya producing several extremely large flowers to the spray. Bright warm rose-pink color with a darker lip and some yellow in the throat. This hybrid, we believe, will prove a worthwhile parent, possibly even better than its parent, Dinah.	4" 4 1/2" 5" 5 1/2"	\$20.00 25.00 30.00 35.00
1348	<b>LC. EL MONTE</b> (C. Monarch x Lc. St. Gothard) As in most St. Gothard hybrids this is variable in season and color but it is a vigorous grower and free bloomer.	6"	\$30.00
1359	<b>LC. OROSI</b> (Lc. Marie Dobrott x C. Tityus var. The Pearl) Like most hybrids from Lc. Marie Dobrott this is an exceedingly strong and spectacular grower and is very free flowering. Flowers large, several to the spray. Sepals and petals a delightful shade of lavender-rose with a darker lip and yellow to orange throat. Usually summer but is variable.	5" 6"	\$25.00 35.00
1368	<b>C. AMABILIS</b> (C. labiata x C. gigas, Low's var. F.C.C.) Exceedingly free flowering and a fine commercial Cattleya. Deep lavender to medium rose. Dark lip. Summer and early fall.	5"	\$15.00
1376	<b>LC. MERCED</b> (Lc. Marie Dobrott x C. labiata, W'birt. var.) A happy combination of parents, this hybrid is exceedingly strong growing. Several flowers to the spray all of which are large and of medium color. The labiata parent was the finest form of labiata we know of. Fall and early winter.	4 1/2" 5" 5 1/2" 6" 7"	\$20.00 25.00 30.00 35.00 40.00
1378	<b>LC. OLINDA</b> (Lc. Massasoit x C. labiata, W'birt. var.) A fall bloomer, strong growing and free flowering. The flowers are large, very similar to Massasoit.	6"	\$35.00
1400	<b>C. GOLETA</b> (C. labiata var. Ottawa x C. Cooksonii) Summer and fall bloomer. Large flowers. Sepals and petals deep lavender to light rose. Lip darker.	6"	\$25.00

Variety		Size	Price
1436	<b>C. JEAN BARROW</b> (C. Cowaniae x C. Bronicha alba) While not unduly large, a fine clear white Cattleya, blooming usually late winter and early spring but is variable.	4 1/2" 5"	\$30.00 35.00
1515	<b>C. MONTEBELLO</b> (C. General Pulteney x C. Remy Cholet) A very worthwhile winter hybrid. A strong grower producing a fine flower similar to C. Remy Cholet but much darker in the lip and with more substance.	4 1/2" 5" 5 1/2" 6"	\$20.00 25.00 30.00 35.00
1569	<b>LC. PALO ALTO</b> (Lc. Wellsiana x C. Robert de Wavrin) An early spring bloomer. Although subdued in color, it is nevertheless very pretty as are most C. Robert de Wavrin hybrids. Sepals and petals are light to medium lavender. Lip is slightly darker with a strong orange throat.	5" 5 1/2" 6"	\$25.00 30.00 35.00
1843	<b>C. CHOLAME</b> (C. Warneri x C. Trianae, Edgar Knight) This parentage has produced freedom of growth and flower. The flowers are of good size and a distinct improvement over both parents. Spring and early summer bloomer.	5" 5 1/2"	\$25.00 30.00
1869	<b>LC. CUESTA</b> (Lc. Marie Dobrott x Lc. Cavalese) A variable hybrid of spectacular growth. All are fine, some exceedingly so. The color varies from deep lavender to intense deep rose in the sepals and petals; the lips are large and of rich maroon-crimson. We seem to have Cuestas in bloom every month of the year.	5" 5 1/2" 6" 7"	\$35.00 40.00 45.00 50.00
1923	<b>LC. TALLAPOOSA</b> (C. Trianae x Lc. Sunbelle) The Sunbelle parent, of course, gives substance and freedom of bloom. The sepals and petals are medium lavender, the lip somewhat darker. Blooms winter and early spring but is variable.	4 1/2" 5" 5 1/2"	\$12.50 15.00 20.00
1940	<b>C. ESTELLE ALBA</b> (C. Cowaniae alba var. Enchantress x C. Edithiae) Those who know our strain of Estelle alba know it to be one of the most satisfactory white Cattleyas yet raised. Remarkably free flowering with considerable variation in the size and form of the flowers but its production is phenomenal. The season, October to June with some variability.	4" 4 1/2" 5" 5 1/2" 6" 7"	\$25.00 30.00 35.00 40.00 45.00 50.00
2508	<b>LC. EDITH WILLKIE</b> (Lc. Mrs. Harold Lloyd x C. Dinah, A.M.) We have sold so many plants of this hybrid that it should be well known. It is a spectacular orchid from point of its growth, size, color and quantity of the flowers. We have used selected forms of this hybrid as a parent and we are sure that other growers will also. It has strength, flower production, color and amazing vigor.	4" 4 1/2" 5" 5 1/2" 6" 7"	\$20.00 25.00 30.00 35.00 40.00 45.00
2509	<b>LC. ALTA MESA</b> (C. Hardyana x Lc. Mrs. Harold Lloyd) We have a few remaining plants of this good hybrid which shows strongly the influence of Mrs. Harold Lloyd.	5" 5 1/2"	\$15.00 20.00
2510	<b>C. CONSUMMATION</b> (C. Tityus var. The Pearl x C. Dinah, A.M.) A fine C. Dinah hybrid resembling this parent as do most of its hybrids. Flowers have rich warm rose sepals and petals. The lip, darker with yellow in the throat. Variable but spring and summer usually.	4 1/2" 5" 5 1/2"	\$20.00 25.00 30.00

Variety		Size	Price
2511 <b>C. HEATHERWOOD</b> (C. Tityus var. The Pearl x C. Mossiae var. Countess Grey F.C.C.) When remaking an older hybrid we endeavor to use superior parents and in this case the results are very definite. Our strain of C. Heatherwood is a superior one from every point of view. The flowers are larger, of better shape and richer in color. Blooming spring and summer.		4 1/2"	\$12.50
		5"	15.00
		5 1/2"	20.00
		6"	25.00
2514 <b>C. SUZANNE HYE ALBA</b> (C. Gaskelliana alba x C. Mossiae var. Wageneri, F.C.C.) We have raised several batches of this hybrid from the same parent plants. They are good and free flowering but a small percentage have faint lavender coloring in the lip.		3"	\$10.00
		3 1/2"	12.50
		4"	15.00
		4 1/2"	20.00
		5"	25.00
		5 1/2"	30.00
	6"	35.00	
2534 <b>LC. KEOKUK</b> (Lc. Marie Dobrott x C. Hardyana) Extra large flowers favoring Lc. Marie Dobrott. Variable in flowering season, early fall predominating.		5"	\$25.00
		5 1/2"	30.00
		6"	35.00
		7"	40.00
2546 <b>LC. SAM HOUSTON</b> (Lc. Marie Dobrott x Lc. Morvyth, magnifica) A strong grower. Flowers are large, of fine form and good texture. Sepals and petals are predominantly a deep, warm rose with an intense crimson lip with gold or orange area in the throat. The flowering season is variable as there are nearly always some plants in bloom.		4 1/2"	\$20.00
		5"	25.00
		5 1/2"	30.00
		6"	35.00
		7"	40.00
2562 <b>LC. GITCHE MANITO</b> (Lc. Morvyth magnifica x C. Gay Gordon) Similar to above but richer in color and shows more Cattleya influence.		5"	\$30.00
		5 1/2"	35.00
		6"	40.00
2583 <b>LC. HOLLYWOOD</b> (C. Octave Doin x Lc. Marie Dobrott) A strong growing, free flowering hybrid. Sepals and petals are light to medium lavender. Lip dark purple with orange in the throat. Variable flowering season.		5"	\$25.00
		5 1/2"	30.00
2635 <b>C. REINDEER</b> (C. Trimos x C. Remy Cholet) Winter and spring bloomer, very free. The flowers are large, medium lavender sepals and petals with large dark lips.		4"	\$12.50
		4 1/2"	15.00
		5"	20.00
		5 1/2"	25.00
		6"	30.00
2708 <b>LC. TEXAS</b> (C. Fabianid x Lc. Conquistador) Variable bloomer, fall predominating. This hybrid is quite variable in quality. Some of the finest Laeliocattleyas we have raised have appeared in this batch. They are large, of fine shape and substance and excellent color.		5"	\$25.00
		5 1/2"	30.00
		6"	35.00
		7"	40.00
2709 <b>LC. CALIFORNIA</b> (Lc. Conquistador x C. Gay Gordon) Similar to above but less variable in color. A fine fall and early winter bloomer.		4 1/2"	\$25.00
		5"	30.00
		5 1/2"	35.00
		6"	40.00

Variety		Size	Price
2726	<b>C. WILLIAM HALSTEAD</b> (C. General Pulteney x C. Maggie Raphael, W'birt. variety A.M.) A pretty late fall and winter bloomer. Free flowering and rich in color.	5 1/2"	\$30.00
2735	<b>C. JEVAN</b> (C. Nebo x C. General Pulteney) Strong growing, free flowering Cattleya. Blooming season from October until March. Medium color. Good form and substance.	4 1/2" 5" 5 1/2" 6" 7"	\$12.50 15.00 20.00 25.00 30.00
2739	<b>C. HOPOCAN</b> (C. General Pulteney x C. hibernalis) A free flowering late fall and winter bloomer. Good medium color.	5" 5 1/2" 6"	\$12.50 15.00 20.00
2751	<b>LC. MEMORIA HELENE AMMENHEUSER</b> (Lc. Mrs. Harold Lloyd x C. Remy Cholet) Exceedingly vigorous grower, variable in flowering season. Flowers large. Sepals and petals lavender to light rose. Lip dark crimson-purple with light yellow in throat.	5" 5 1/2" 6"	\$12.50 15.00 20.00
2769	<b>C. LUMINARY</b> (C. Nebo x C. Remy Cholet) Another winter bloomer from C. Remy Cholet. Very free flowering. The flowers are medium color with a bright attractive lip.	5" 5 1/2" 6"	\$12.50 15.00 20.00
2770	<b>C. EMPEROR</b> (C. Nebo x C. Monarch) Good average color, this hybrid is very free flowering, blooming in the winter. Being closely related to #2769, both are good commercial varieties.	5"	\$12.50
2789	<b>C. NARCISSUS</b> (C. Monarch x C. Profusion) Flowers extra large. Good form and color. The sepals and petals are pleasing shades of warm lavender and lavender-pink and it is very free flowering. Blooms in the spring.	5" 5 1/2" 6"	\$20.00 25.00 30.00
2791	<b>C. KANAKUK</b> (C. Profusion x C. Trianae var. Grand Monarch F.C.C.) A winter bloomer of medium to deep rose color and extremely free flowering. The flowers are large and of good shape.	5"	\$15.00
2793	<b>LC. ORENDA</b> (C. Santa Monica x Lc. Marie Dobrott) Of great merit, this hybrid grows with all the vigor of the usual Lc. Marie Dobrott hybrids. The C. Santa Monica parent has passed on fine shape and texture. Sepals and petals bright lavender to light rose. The lip, dark crimson-purple with some yellow in the throat. Some superb varieties have appeared in this batch of seedlings. A long extended season. We seem to have some flower at all times.	5" 5 1/2" 6"	\$25.00 30.00 35.00
2828	<b>C. ENID</b> (C. gigas x C. Mossiae var. Countess Grey F.C.C.) Long recognized as one of the best commercial Cattleyas. Our strain is well known; the flowers are much larger, of excellent form and quality. Most Enids are free flowering, this one exceptionally so, blooming more than once a year.	4" 4 1/2" 5" 5 1/2" 6" 7"	\$12.50 15.00 20.00 25.00 30.00 35.00

*Prices Subject to Change Without Notice*

Variety		Size	Price
2850	<b>LC. DOROTHY FRIED</b> (Lc. Princess Margaret x C. Dinah, A.M.) As may be expected from the parentage, this is an exceedingly fine bold hybrid. For the most part they have perfect shape and balance. Large rose sepals and petals with a darker lip. The flowers have tremendous texture. Selected seedlings from this cross flowering for the first time have found purchasers at prices of \$100.00 and up. Season summer and fall. Also somewhat variable.	5" 5 1/2" 6"	\$25.00 30.00 35.00
2869	<b>LC. FORTY-NINER</b> (C. Chrysotoxa x Lc. Mrs. Medo var. Aurantica) Like all hybrids of this type there is considerable variation in form and in depth of color and some most pleasing shades and types have appeared among them. Summer bloomer. The color ranges from chartreuse through yellow to deep orange with blending red lips some of which are isthmus shaped, some round.	4 1/2" 5" 5 1/2"	\$25.00 30.00 35.00
2879	<b>LC. PROSPERITY</b> (Lc. Marie Dobrott x Lc. Princess Margaret) The parentage would, of course, ensure a fine hybrid. Large, free flowering, of fine form and good color. Fall season predominates but it is variable.	5" 5 1/2"	\$30.00 35.00
2931	<b>C. YUMA</b> (C. Achine x C. Intertexta) The average of this hybrid is medium to very dark. It is free flowering. Somewhat variable but predominantly late fall and winter.	4 1/2" 5" 5 1/2" 6"	\$15.00 20.00 25.00 30.00
2967	<b>C. MENOMINEE</b> (C. Annie J. Lines x C. Mossiae) A winter and spring bloomer of good color and very free flowering.	5 1/2"	\$20.00
2987	<b>LC. CALI</b> (Lc. Mrs. Harold Lloyd x C. Trianae var. Imperator A.M.) A winter and early spring bloomer. Fine habit of growth and very free flowering. Sepals and petals warm deep lavender with an intensely dark crimson-purple lip.	5"	\$25.00
3016	<b>C. GRANADA</b> (C. Profusion x C. Empress Frederick) A spring and early summer bloomer. Very free. Flowers are large and of good shape. Sepals and petals are light to medium rose. Rich crimson-purple lip heavily veined with gold.	5" 5 1/2" 6"	\$25.00 30.00 35.00
3032	<b>C. APALACHEE</b> (C. Cowaniae x C. Nebo) Late spring and early summer bloomer, resembling Mossiae.	5" 5 1/2"	\$12.50 15.00
3034	<b>C. BELGICA</b> (C. Remy Cholet x C. Enid) A well known hybrid, blooming in the spring usually but is variable. Free blooming and an excellent cut flower.	5"	\$15.00
3044	<b>C. AMEDEE</b> (C. Talisman x C. Nebo) An exceedingly free winter bloomer resembling a good colored Mossiae. Flowers of good size. It is a most productive cut flower variety.	5"	\$15.00
3045	<b>C. GERLINDA</b> (C. Santa Monica x C. Talisman) Resembling a large, glorified Santa Monica. Good substance and while not dark, is brilliant. Blooming usually in the spring. Gerlinda definitely has quality.	4 1/2" 5" 5 1/2" 6"	\$20.00 25.00 30.00 35.00
3049	<b>C. AMBAZAC</b> (C. General Pulteney x C. Talisman) Late winter and spring bloomer of good size and medium color.	5" 5 1/2"	\$20.00 25.00

Variety		Size	Price
3070	<b>C. FAMOSA</b> (C. Tityus var. Patriarch x C. Remy Cholet)	4 1/2"	\$30.00
	We rate the two parents used in this cross as among the best in our stud and this cross has fully justified the estimate. The flowers are large, of fine proportions. Lavender to rose sepals and petals and all have the intense, dark lips that Tityus var. Patriarch passes on to its hybrids. A fine blooming season from November until the end of April.	5"	35.00
		5 1/2"	40.00
		6"	45.00
3073	<b>C. BANDIT</b> (C. Nebo x C. Tityus, var. Patriarch)	4 1/2"	\$25.00
	Similar to above, beautiful lips and very free flowering. A customer recently said definitely one of our best introductions.	5"	30.00
		5 1/2"	35.00
3078	<b>C. JANET</b> (C. Santa Monica x C. Monarch)	4 1/2"	\$15.00
	Blooming in the winter and early spring, a most worthwhile Cattleya of medium color, good form and free flowering. A few nice alba forms of white and ivory petals have appeared.	5"	20.00
		5 1/2"	25.00
3079	<b>LC. SURYA</b> (Lc. Tartan x C. Monarch)	5"	\$12.50
	A free flowering spring bloomer in medium to rich color.		
3111	<b>C. TENACITY</b> (C. Nebo x C. Profusion)	5"	\$20.00
	Free flowering spring and summer bloomer, resembling Mossiae but much darker.		
3121	<b>C. PORTOLA</b> (C. Profusion x C. Mrs. F. Knollys)	4 1/2"	\$20.00
	Could be described as a much improved Empress Frederick. Blooming in the spring and early summer, it is very free flowering. The flowers are large and, for the most part, of excellent color.	5"	25.00
		5 1/2"	30.00
		6"	35.00
3129	<b>LC. SHOSHONE</b> (L. purpurata x C. Profusion)	4"	\$5.00
	Spring bloomer, free flowering, generally resembling Mossiae.	4 1/2"	7.50
		5"	10.00
		5 1/2"	12.50
3133	<b>C. FAUNUS</b> (C. Profusion x C. Mossiae)	4"	\$10.00
	An improved Mossiae from the point of view of shape and color, blooming about the same time.	4 1/2"	12.50
		5"	15.00
		5 1/2"	20.00
		6"	25.00
		7"	30.00
<del>3134</del>	<del><b>C. COWANIAE</b> (C. Mossiae x C. Intertexta)</del>	<del>4"</del>	<del>\$5.00</del>
	<del>While an old hybrid, our strain of this is a very worthwhile commercial variety. Several large flowers to the spray of good color and a very useful flowering season, spring and early summer.</del>	<del>4 1/2"</del>	<del>7.50</del>

3137	<b>C. OMPHALE</b> (C. Nebo x C. Mossiae)	4 1/2"	\$12.50
	Another hybrid of the Mossiae type but with more color.	5"	15.00
3145	<b>C. PRISCILLA MULLENS ALBA</b> (C. Brussels alba x C. Mossiae Reineckiana)	4 1/2"	\$20.00
	A spring and summer bloomer similar to C. Mossiae Reineckiana. Flowers are large. Sepals and petals are white, prettily fringed with crimson-purple veining at the base and strong yellow in the throat.	5"	25.00
		5 1/2"	30.00

Variety		Size	Price
3157	<b>C. PESCADO</b> (C. Cassadaga x C. Profusion) Spring bloomer, exceedingly free flowering. Similar in color to C. Mossiae but more flowers to the spray and usually a better shape.	4" 4 1/2" 5"	\$10.00 12.50 15.00
3164	<b>C. VANIR</b> (C. Mossiae x C. Gravesiana) Spring and early summer bloomer strongly resembling C. Mossiae in habit and appearance.	5"	\$12.50
3167	<b>C. SIR PERTINAX</b> (C. Sir Walter Scott x C. Mossiae) Resembling C. Enid in general form but with a more fixed flowering season which is spring and summer.	5"	\$12.50
3170	<b>C. MRS. F. KNOLLYS</b> (C. Hardyana x C. Mossiae var. Countess Grey F.C.C.) Variable as to season this is a free blooming Cattleya. Rich rose sepals and petals with a darker lip veined with gold.	5" 5 1/2" 6"	\$15.00 20.00 25.00
3172	<b>C. VINDICATOR</b> (C. Mossiae x C. Adeyne) Very similar to Enid but more fixed in season to spring and early summer.	4 1/2" 5"	\$15.00 20.00
3210	<b>C. VARUNA</b> (C. Intertexta x C. Annie J. Lines) Exceedingly strong growing hybrid producing flowers of intense color. Variable as to flowering season, late fall and early winter predominating. Some Varunas are in bloom almost every month in the year.	4 1/2" 5" 5 1/2" 6"	\$15.00 20.00 25.00 30.00
3212	<b>C. MITHRA</b> (C. Mount Royal x C. Intertexta) In most cases deep, rich rose, all have dark brilliant lips. We consider Mithra a fine Cattleya hybrid. The season is variable, usually winter.	4" 4 1/2" 5" 5 1/2" 6"	\$15.00 20.00 25.00 30.00 35.00
3228	<b>LC. JAUREZ</b> (Lc. Marie Dobrott x Lc. Massasoit) A large and fine flower with rich color. Sepals and petals are lavender-rose with an intense crimson lip veined with gold.	5"	\$25.00
3229	<b>LC. HALONA</b> (Lc. Marie Dobrott x C. Profusion) Like all Lc. Marie Dobrott hybrids this is vigorous and free flowering. Flowers are large. Sepals and petals are medium rose. Lip darker with a yellow area in the throat and some gold veining.	4 1/2" 5"	\$20.00 25.00
3250	<b>LC. SAVITAR</b> (Lc. Hyperion x C. Prospector) As is to be expected, of fine shape and excellent texture. Resembling Prospector in color, it is a free bloomer, the season winter and early spring.	2-2 1/2" 3" 4 1/2" 5" 5 1/2"	\$10.00 15.00 30.00 35.00 40.00
3251	<b>LC. TREASURER</b> (C. Hermosa x Lc. Hyperion) Similar to above but variable in season.	4" 4 1/2" 5"	\$25.00 30.00 35.00
3252	<b>LC. AGNI</b> (C. Nebo x Lc. Hyperion) Similar to Hyperion in growth and general character. An exceedingly fine Cattleya hybrid of rich color and noble proportions. The season is late winter and spring.	4" 4 1/2" 5" 5 1/2"	\$25.00 30.00 35.00 40.00

***Cattleya Heyday, variety Colossus***  
**Cross No. 3452**

Variety	Size	Price
3264 <b>C. REMY CHOLET</b> (C. Trianae, Imperator A.M. x C. Monarch) This is the third batch of C. Remy Cholet we have raised. Flowers are large, of excellent shape and substance. Petals are medium to deep lavender, some showing a definite deep colored rib in each petal. A strong growing type bred from an exceptionally fine Trianae. Season winter to early spring.	4" 4 1/2" 5" 5 1/2" 6" 7"	\$12.50 15.00 20.00 25.00 30.00 35.00
3304 <b>C. HOSHANG</b> (C. Trianae, Edgar Knight x C. Intertexta) A winter and spring bloomer with some variability. Lavender to light rose sepals and petals with a darker lip.	5" 5 1/2"	\$20.00 25.00
3309 <b>C. ILLUMINATION</b> (C. Belinda x C. Trianae v. Grand Monarch A.M.) Large flower. Fine shape and texture. Good color. Blooming New Year and early spring.	4" 4 1/2" 5" 5 1/2" 6"	\$12.50 15.00 20.00 25.00 30.00
3317 <b>C. ATROPOS</b> (C. Intertexta x C. Santa Monica var. Goliath) A spring bloomer of good shape with full petals and a lip dark crimson-purple at the base with a light yellow throat.	5"	\$15.00
3318 <b>C. TELLUS</b> (C. Intertexta x C. Prospector) Our earlier description of this hybrid was understatement in the extreme. It has proven to be an exceedingly valuable cut flower variety. Flowers are large, of good color with a variable season but predominantly spring and early summer.	4" 4 1/2" 5" 5 1/2"	\$12.50 15.00 20.00 25.00
3331 <b>C. OCEANID</b> (C. Nebo x C. Trimos) Here is a hybrid far surpassing Mossiae in our opinion. The flowers are medium size, compact, good substance and all have solid, dark lips. Very free flowering, the season is from December until May.	3" 3 1/2" 4" 4 1/2" 5" 5 1/2"	\$ 7.50 10.00 12.50 15.00 20.00 25.00
3334 <b>C. DEBATER</b> (C. Monarch x C. Leda) The few of this cross which we have seen have surprised us with the depth of color but we are expecting that types with lighter colored sepals and petals will appear. The season is winter and spring.	4" 4 1/2"	\$15.00 20.00
3336 <b>C. LAKHMU</b> (C. Diplomat x C. Leda) A pleasing winter and spring flowering Cattleya of good size and color.	3 1/2" 4"	\$12.50 15.00
3341 <b>C. MOSSIAE WAGENERI</b> (Species) <del>Seedling white Mossiae raised from a superior Wageneri. All are true whites.</del>	3" 3 1/2" 4" 4 1/2" 5" 5 1/2" 6"	\$10.00 12.50 15.00 20.00 25.00 30.00 35.00
3381 <b>LC. GATTON GLORY</b> (C. Mimosa x Lc. Canberra, Stonehurst var.) This well known hybrid varies in color from chartreuse through yellow to deep burnt orange sepals and petals with red lips to harmonize. Usually a summer bloomer, it is a most attractive Cattleya.	4" 4 1/2" 5" 5 1/2"	\$25.00 30.00 35.00 40.00

Variety	Size	Price
3410 <b>LC. KISHAR</b> (Lc. Braceyana x C. Trianae) As is to be expected this has fine form and good texture. Medium color in the sepals and petals and a dark lip. Winter and spring.	4"	\$12.50
	4½"	15.00
	5"	20.00
3452 <b>C. HEYDAY</b> (C. Profusion x C. Prospector) Considerable variation in color and form but some unusually fine types have appeared among the seedlings which have sold at premium prices. The season is winter and spring but is variable.	3½"	\$10.00
	4"	12.50
	4½"	15.00

	4 1/2"	15.00
5"	20.00	
3617 <b>C. DOWIANA AUREA</b> (Species) About the fifth batch of C. Dowiana aurea x C. Dowiana aurea we have raised. The parents were selected varieties and all the resulting seedlings are good, some exceptionally so.	4"	\$12.50
	4 1/2"	15.00
3619 <b>C. EPICURE ALBA</b> (C. Brussels alba x C. Dowiana aurea) Ivory sepals and petals. Crimson-purple lip which is heavily veined with gold and some gold area in the throat. A free flowering spring and summer bloomer.	3 1/2"	\$12.50
	4"	15.00
	4 1/2"	20.00
3620 <b>C. NETTIE TIPTON</b> (C. Fabianid alba x C. Brussels alba) A summer and fall bloomer with some out of season blooms. This is a fine alba Cattleya of good shape and texture.	3"	\$10.00
	3 1/2"	12.50
	4"	15.00
	4 1/2"	20.00

Variety		Size	Price
3621	<b>LC. BERDINE JOHNSON</b> (Lc. Hassallii alba x C. Fabianid alba) . . . . . A strong growing, free flowering white with colored lip. The flowers are large, of good shape; spring and summer predominate as to season but is variable.	3" 3 1/2" 4" 4 1/2"	\$10.00 12.50 15.00 20.00
3624	<b>LC. KRONOS</b> (Lc. Valencia x Lc. Britannia) . . . . . Still somewhat variable, the season appears to be late summer and fall. A most worthwhile hybrid of excellent shape and size. Sepals and petals are a warm shade of lavender-rose. The lip is deep crimson with some gold in the throat. The petals are sometimes feathered at the tips with crimson.	4" 4 1/2" 5"	\$15.00 20.00 25.00
3647	<b>C. CORFLAMBO</b> (C. Jicarillo x C. ardentissima) . . . . . The season, fall and early winter. The flowers are large and of unusually rich color as is to be expected from the parentage. Strong growing, very free flowering, we recommend this with confidence.	3" 3 1/2" 4" 4 1/2" 5"	\$12.50 15.00 20.00 25.00 30.00
3648	<b>C. TETHYS</b> (C. Annie J. Lines x C. ardentissima) . . . . . Here is a hybrid where it is safe to say <b>all</b> are dark and some are very dark. The growth is strong and good; it is free flowering and out of the several hundred we have seen flower, all have been dark. The shape is good to very good and the texture most satisfactory. Fall and winter, but somewhat variable.	3" 3 1/2" 4" 4 1/2" 5" 5 1/2"	\$15.00 20.00 25.00 30.00 35.00 40.00
3650	<b>C. ALWYNII ALBA</b> (C. Enid alba x C. Amabilis alba) . . . . . Our strain of this well known alba was bred from choice parents. Has fine texture, shape, clear white sepals and petals with a dark lip.	3" 3 1/2" 4" 4 1/2"	\$10.00 12.50 15.00 20.00
3658	<b>LC. AGNES FRAWLEY X C. ARDENTISSIMA</b> . . . . . Unflowered as yet but we have confidence and are growing a quantity for our own use.	3"	\$ 7.50
3662	<b>LC. GOLDEN TOUCH</b> (C. Mimosa x Lc. Princess Mary) . . . . . Variable like all yellows in shape and depth of color. Some are most pleasing but there is some speculation.	3 1/2" 4" 4 1/2" 5"	\$15.00 20.00 25.00 30.00
3673	<b>LC. AMORET</b> (Lc. Elissa x C. labiata, W'birt. var.) . . . . . A fall and early winter bloomer of large size and excellent color as is to be expected from the parentage.	4"	\$20.00
3685	<b>C. LABIATA</b> (Species) . . . . . Another crossing of the original parents we used in making our famous strain of labiata, namely varieties Ottawa and Westonbirt.	3" 3 1/2" 4" 4 1/2" 5" 5 1/2" 6" 7"	\$ 6.00 7.50 10.00 12.50 15.00 20.00 25.00 30.00
3800	<b>LC. RODERICK DHU</b> (Lc. Tartan x C. Annie J. Lines) . . . . . Of variable season, a vigorous grower, rich in color.	3" 3 1/2" 4" 4 1/2"	\$ 5.00 6.00 7.50 10.00

Variety	Size	Price
3802 <b>C. PROSPECTOR X LC. TARTAN</b> . . . . . Unflowered as yet, winter and spring expected.	3"	\$ 7.50
3803 <b>C. TRIMOS X C. ATHENA</b> . . . . . Unflowered as yet. Expect an unusually free winter and spring bloomer of size and color.	2-2½" 3"	\$ 5.50 7.50
3804 <b>C. DIPLOMAT X C. ATHENA</b> . . . . . Unflowered as yet.	3"	\$ 7.50
3805 <b>C. REMY CHOLET X C. ATHENA</b> . . . . . Also unflowered but should prove excellent commercial winter and spring blooming variety.	2-2½" 3"	\$ 5.50 7.50
3806 <b>C. PROSPECTOR X C. ATHENA</b> . . . . . Unflowered but this cross has great possibilities as a winter bloomer.	2-2½" 3"	\$ 5.50 7.50
3828 <b>LC. S.J. BRACEY X BLC. OJAI</b> . . . . . We are frank to say this is a highly speculative cross. Best of parents used in each case but undoubtedly there will be a great variation in quality, size and form.	2-2½" 3"	\$ 5.50 7.50
3832 <b>LC. S.J. BRACEY X LC. GOLDEN WEST</b> . . . . . Another speculative yellow hybrid but it should produce some very pleasing color tones. Great interest has been shown in this cross and the preceding one. Sales have been heavy.	2-2½" 3"	\$ 5.50 7.50
3836 <b>C. WARNERI ALBA X C. LADY VEITCH</b> . . . . . Unflowered but possibilities for free flowering pure white are excellent. Season most likely to be late spring and summer.	2-2½" 3"	\$ 7.50 10.00
3842 <b>C. OSSA</b> (C. Achine alba x C. Harold alba) . . . . . A fine alba of good shape. Sepals and petals are clear white with dark lips.	3"	\$10.00
3844 <b>C. LUEGEAE ALBA X C. AMABILIS ALBA</b> . . . . . Per seedling: Season undetermined but expect a beautiful alba of fine form and substance and exceedingly free.	C/P 2-2½" 3"	\$ 3.00 9.00 12.50
3846 <b>C. LUEGEAE ALBA X LC. HASSALLII ALBA</b> . . . . . Unflowered as yet but combination of these parents should produce large flowers of good substance in abundance. White with extra rich dark lip.	2-2½" 3"	\$ 5.50 7.50
3847 <b>C. PEETERSII X LC. PRINCESS MARGARET</b> . . . . . Parents involved in this cross are superb. It should be a perfect blending. Season is likely to be fall. We highly recommend this for cut flower purposes.	2-2½" 3"	\$10.00 15.00
3874 <b>LC. INDRA</b> (Lc. Integrity x C. Prospector) . . . . . The few that have flowered have lived up to our expectations and we still feel this is one to bank on. The parents are both winter and early spring bloomers and superb forms were used of each.	2-2½" 3" 3½"	\$10.00 15.00 20.00
3900 <b>C. LUEGEAE ALBA X C. BRUSSELS ALBA</b> . . . . . We expect this to develop into a very fine orchid with white sepals and petals and colored lip and to be exceedingly free flowering.	2-2½" 3"	\$ 7.50 10.00

*Cattleya Trimos*  
Cross No. 1031

Variety	Size	Price
3901 <b>C. NUTLEY ALBA X C. LUEGEAE ALBA</b> Unflowered as yet but should be similar to above, perhaps even finer.	2-2½"	\$ 7.50
3919 <b>C. EDITHIAE, WHITE EMPRESS F.C.C. X C. BEBE WHITE</b> Unflowered but of great promise for a winter flowering white of size, form and free flowering qualities.	2-2½" 3"	\$10.00 15.00
3921 <b>C. ESTELLE ALBA, VERY FINE VARIETY X C. BEBE WHITE</b> It is difficult to imagine a better combination of white parents. This cross, we think, has great probabilities. Should flower winter and early spring.	1½" 2-2½" 3"	\$ 7.50 10.00 15.00
3922 <b>C. OLIVE PIERSON X C. BEBE WHITE</b> The few that have bloomed of this cross are large and heavy textured; clear, solid white with greenish-yellow throat.	2-2½" 3"	\$10.00 15.00
3925 <b>C. CELIA X C. ESTELLE ALBA</b> For those who like medium sized, heavy textured whites of full form this should be hard to beat.	2-2½"	\$ 7.50
3928 <b>LC. SUSAN McASHAN</b> (C. Gigas, F. M. Beyrodt F.C.C. x LC. British Queen alba) This one has surprised us. Even on small 3" plants the flowers are large. The sepals and petals are white with sometimes a slight lavender flush. The lip as is to be expected shows strong influence of speciosissima. Spring bloomer but likely to be variable. It grows well and the indications are that it is one of the freest flowering of all the new seedlings.	2-2½" 3" 3½"	\$ 5.50 7.50 10.00
3931 <b>C. MARY CHILTON ALBA X C. VIVIAN ALBA</b> A large flower. Petals ivory to cream. Lip dark at the base with an orange throat. Variable bloomer.	2-2½" 3"	\$ 7.50 10.00
3933 <b>C. BRUSSELS ALBA X LC. CYNTHIA</b> Unflowered as yet.	2-2½" 3" 3½"	\$ 7.50 10.00 12.50
3935 <b>LC. GODDESS X C. REMY CHOLET</b> The Goddess was an exceedingly fine one and the Remy Cholet parent has never yet failed. We recommend this as an exceedingly fine winter and spring bloomer.	2-2½"	\$ 7.50
3958 <b>LC. GOLDEN BEAUTY, A.M. X BLC. NANETTE ALBA</b> While an extremely speculative cross, this Brassocattleya should have fine form and substance in varying shades of yellow. We have every confidence in it.	1½" 2-2½"	\$ 7.50 10.00
3978 <b>C. PERCIVALIANA ALBA X BLC. QUEEN OF THE BELGIANS</b> While, to outward appearance, a pure white form of Percivaliana was used in the cross, we are frank to say we are doubtful whether it will breed white but nevertheless we feel it will be an interesting hybrid.	1½"	\$ 3.00
3982 <b>C. ESTELLE ALBA X BLC. QUEEN OF THE BELGIANS</b> Fine white Brassocattleyas are rare indeed. We anticipate that this will be a good one with a somewhat variable flowering season but more should bloom during the winter and early spring.	2-2½"	\$ 7.50

Variety		Size	Price
3983	<b>C. SERENITY X LC. INTEGRITY VAR. STEADFAST</b> To those who know these parents this cross needs no explanation. Both are winter bloomers of superior quality. C. Serenity has fine form and substance and Lc. Integrity is equally as fine with more color. The results should be a perfect winter and spring bloomer.	1½" 2-2½"	\$ 7.50 10.00
4007	<b>C. MONTEBELLO X C. TITYUS, WESTONBIRT VAR.</b> The Montebello parent is a fine winter blooming Cattleya of excellent shape and substance with a large colored lip. The Westonbirt variety of Tityus is, of course, well known and a combination of two such parents should produce a fine, well balanced Cattleya of good color.	2-2½" 3"	\$ 5.50 7.50
4018	<b>C. PROSPECTOR X C. SANTA MONICA VAR. GOLIATH</b> Here is a mating of two of the finest winter blooming Cattleyas we know of. C. Santa Monica var. Goliath has tremendous substance and shape and C. Prospector is, to our mind, the most profitable cut flower Cattleya yet raised. This cross should prove extremely worthwhile.	1½" 2-2½"	\$ 7.50 10.00
4026	<b>C. EDITHIAE</b> (C. Suzanne Hye alba x C. Trianae alba, Broomhill var.) It may be possible to make C. Edithiae with finer parents but we doubt it. The seedlings offered are extremely well bred and, of course, C. Edithiae is a fine winter pure white Cattleya and very worthwhile.	1½" 2-2½"	\$ 6.00 9.00
4027	<b>C. ESTELLE ALBA X C. TRIANAE ALBA, BROOMHILL VAR.</b> We expect this cross to be even finer than the preceding one but at present it is unproven. It will definitely be a winter pure white with a yellow throat.	1½" 2-2½"	\$ 6.00 9.00
4043	<b>C. MOSSIAE REINECKIANA X C. NUTLEY ALBA</b> This will be a fine Cattleya with white sepals and petals and a colored lip, very similar to Mrs. Knollys alba but we are inclined to think blooming with a more fixed season of spring and summer.	1½"	\$ 5.00
4050	<b>C. BRUSSELS</b> (C. Harold x C. Mossiae) (Colored type) This will undoubtedly prove a free flowering Cattleya with an extended season. The sepals and petals should be medium to light lavender with a deeper lip.	1½" 2-2½"	\$ 2.00 3.50
4051	<b>B. DIGBYANA X C. SUZANNE HYE GRANDIFLORA</b> This cross should produce a primary Brassocattleya pure white except for a greenish-yellow throat. C. Suzanne Hye grandiflora is of unusual size and excellent form with tremendous lip.	1½" 2-2½"	\$ 5.00 7.50
4053	<b>C. ENID ALBA</b> (C. gigas, F.M. Beyrodt F.C.C. x C. Mossiae Reineckiana) Made with Mossiae Reineckiana, Young's variety, there is little doubt that this will be an unusually fine strain of Enid alba with a variable flowering season.	1½"	\$ 5.00
4055	<b>LC. SCHRODERAE ALBA X C. BRUSSELS ALBA</b> Unflowered but should produce an alba of great merit. We have confidence in this cross, both parents involved being unusually fine forms. Season likely to be fall and winter.	1½" 3"	\$ 5.00 10.00

*Please Read Our Foreword*

Variety		Size	Price
4064	<b>LC. MAKIKI X LC. PRINCESS MARGARET</b> Makiki is one of our own introductions. An exceedingly strong grower with unusually deep color. This hybrid should be a dark fall and winter bloomer. We recommend it.	1½"	\$ 7.50
4078	<b>LC. PETER THE GREAT X C. ENID ALBA</b> Lc. Peter the Great is probably the freest flowering alba in existence. As many as eleven flowers to the spray. The fine C. Enid alba used in this cross should add size and form. Season will doubtless be variable.	1½" 2-2½"	\$ 5.00 7.50
4079	<b>C. MINA ALBA X C. S.E. ENDICOTT</b> Here is a pure white cross of great possibilities for size, form and free flowering qualities. We recommend this highly.	1½"	\$ 5.00
4084	<b>C. REMY CHOLET X LC. INTEGRITY VAR. STEADFAST</b> This is of course unflowered as yet but we look for a fine winter and spring bloomer of excellent substance and rich color.	1½"	\$ 7.50
4085	<b>C. ENID X LC. INTEGRITY VAR. STEADFAST</b> We are always inclined to wax enthusiastic when Lc. Integrity is used as a parent, but we will stay with our custom of understatement and just highly recommend this cross as being a good speculation.	1½" 2-2½"	\$ 7.50 10.00
4090	<b>LC. EDITH WILLKIE X LC. SUNBELLE</b> We introduced Sunbelle into this cross with the idea of giving Edith Willkie even more substance and a longer stem. We believe it will prove worthwhile.	1½"	\$ 5.00
4095	<b>LC. CANEVO X C. TITYUS VAR. PATRIARCH</b> Here is a cross we can thoroughly recommend as a winter and spring bloomer. It undoubtedly will have size, excellent form and substance. Medium to deep color in the sepals and petals and an extra fine lip.	1½" 2-2½"	\$ 7.50 10.00
4096	<b>BC. CHIEFTAIN (C. Trianae, Bill Taft x Bc. British Queen)</b> Trianae var. Bill Taft has more substance, a finer stem and more overall color than any Trianae we know of. We believe this mating will give a fine winter-flowering Brassocattleya.	1½"	\$ 5.00
4098	<b>C. SERENITY X LC. CUESTA</b> We are afraid to let ourselves go in describing this one. Both parents were superb. We offer it with confidence.	1½" 2-2½"	\$ 7.50 10.00
4121	<b>C. HENRIETTA JAPHET (C. Loddigesii x C. Eucharis)</b> A white of heavy texture with small to medium flowers and several to a spray. Season unknown as yet.	2-2½" 3"	\$ 3.50 5.00
4124	<b>LC. SANDRA OZZELLA (Lc. S. J. Bracey x C. Dowiana aurea)</b> We recommend this as a most interesting hybrid from Lc. S. J. Bracey producing flowers from green-yellow to deep bronze with red lips.	1½"	\$ 6.00
4130	<b>C. MOUNT ROYAL X LC. EMINENCE</b> Of wonderful form and texture and rich in color. The Mount Royal in this cross is the best we know of. We recommend this one also.	1½"	\$ 7.50

*Prices Subject to Change Without Notice*

Variety		Size	Price
4133	<b>C. SERENITY X BLC. J. K. LILLY</b> . . . . . A most interesting cross as both parents are superb in shape, substance and color. We consider both of these parents among our best hybrids and anticipate progeny from them with great interest.	1 1/2"	\$ 7.50
4140	<b>C. MAGGIE RAPHAEL</b> (C. Trianae, Imperator A.M. x C. Dowiana aurea) . . . . . Per seedling: Trianae Imperator was the parent of the finest strain of Cattleya Maggie Raphael. The aurea used here was one of our own home raised specialties. Late fall and winter.	C/P	\$ 2.00
4141	<b>C. FABIANID X C. REMY CHOLET V. VIVICANS</b> . . . . . Per seedling: Unflowered as yet but both parents were superb of their types.	C/P 1 1/2"	\$ 2.00 3.50
4142	<b>LC. CUESTA X C. TRIANAE, IMPERATOR A. M.</b> . . . . . Per seedling: This cross was made with the thought of producing Cuestas in the winter time. We selected Trianae, Imperator, knowing it was least likely to take color from Cuesta.	C/P 1 1/2"	\$ 4.00 \$ 7.50
4144	<b>C. REMY CHOLET X C. SERENITY</b> . . . . . Here is a winter bloomer made with the finest form winter hybrids we know of. Both are exceedingly free, of good medium color, the Serenity particularly having wonderful substance.	1 1/2"	\$ 7.50
4142	<b>LC. CUESTA X C. TRIANAE, IMPERATOR A. M.</b> . . . . . Per seedling: Pasadena is a hybrid from Lustre and Trianae; J. K. Lilly, from Titymoma var. Roundhead. Color in both parents and outstanding vigor in Pasadena. A hybrid to bank on.	1 1/2"	\$ 7.50
4203	<b>C. ESTELLE ALBA X (BLC. SNOWDON X BC. HEATONENSIS)</b> . . . . . Per seedling: This should produce a pure white Brassocattleya blooming in the winter time with enough of the Brassocattleya left to give large, beautiful lips, Estelle supplying substance and shape.	C/P 1 1/2"	\$ 3.00 6.00
4204	<b>C. LUEGEAE ALBA</b> (C. Enid alba x C. Dowiana aurea) Per seedling: This is a repetition of our fine strain of Luegeae alba which is well known.	C/P 1 1/2"	\$ 2.50 5.00
	<b>BLC. GORDON HIGHLANDER</b> (Bc. Mme. C. Maron x Lc. Aphrodite) A well-known Brassocattleya. Very large. Sepals and petals are deep lavender to light rose. Lip dark purple at the edges with a green-yellow throat.	5"	\$25.00
	<b>C. MOSSIAE</b> (Species) . . . . .	4" 4 1/2" 5" 5 1/2" 6"	\$ 5.00 7.50 10.00 12.50 15.00
